**11+ hour Monte Carlo Style Navigational Road Rally  
Magic Mountain - Pine Canyon - Caliente - Randsburg - Barstow - Cabazon  
November 11, 2006**

## **ROUTE INSTRUCTIONS**

---

Please read the General Rules and Regulations carefully. Ask a rally worker for clarification if necessary. Drive safely and legally at all times. Watch for ALL types of road hazards. Heed ALL posted road signs. Be extremely mindful of unpredictable local traffic at all times. If you smoke, use your ashtray. Please don't litter. Be very careful of children, animals and slow farm vehicles near isolated rural homes. Please be aware of traffic behind you. Different classes run slightly different courses and may have to run at different speeds. It is a rule of Monte Carlo rally etiquette to let cars needing to run faster get past you at the first safe opportunity. Please remember this is not a question of who has the better car or who is the better driver. Furthermore, documented deliberate blocking will receive a MAX penalty for that leg.

At Checkpoints, please get COMPLETELY out of the traffic lane when creeping. Last car in line MUST run their emergency flashers. Be sure to check your mirrors when pulling out to cross the hose. At Standoffs, you MUST park far enough OFF the road so that your door, when opened, will not extend into the traffic lane. At ungated railroad crossings, you must come to a complete STOP and look both ways before crossing. At intersections without stop signs, you must yield to the traffic on your right. There will be truck traffic and cattle in the road on Caliente-Bodfish Rd.

All Rally Controls are deemed to be open from as soon as you download these instructions until the end of the rally. If, and only if, a Rally Control is on a portion of road with no outlet may you U-turn after first going through it correctly, unless otherwise stated. All Passage Control signs pictured in these Route Instructions are actual unique signs on course within 1.0 mile of the intended Checkpoint location. Unless otherwise stated, they will appear on your right when approached correctly on the preferred route. Map reference numbers indicate the maps which show the Rally Control locations best, but not necessarily all maps needed to run the leg.

Please DIM YOUR LIGHTS and shut off your driving and fog lamps when you enter nighttime checkpoints. Failure to do so, when signaled, results in a 100 point penalty. Unless otherwise stated, if there is one Standoff at a location, then 4.00 minutes have already been included in the leg time for you to sign in at Standoff and be given your information. For each additional Standoff, an additional 2.00 minutes are included.

It is less than 90 miles to the first break.
