

**THE MIDNIGHT RUN**  
**12 hour Monte Carlo Style Navigational Road Rally**  
**June 26 - 27, 2010**  
**ROUTE INSTRUCTIONS, GROUPS N and B**

---

---

Please read the General Rules and Regulations carefully. They are the basis for this rally. Drive safely and legally at all times. Watch for ALL types of road hazards. Heed ALL posted road signs. Be extremely mindful of unpredictable local traffic at all times. Be very careful of children, animals and slow vehicles near isolated rural homes.

Please watch carefully for wild animals, especially during the times around dusk and dawn. Be very alert for working farm vehicles and ATV's turning onto the road, especially at night. Most of the roads on this rally are in good condition, but always be alert for a sudden pothole or patch of broken pavement. Treat uncontrolled intersections as 4-way stops. Come to a complete stop at all ungated RR crossings.

Please be aware of traffic behind you. Different classes run different courses and may have to run at different speeds. It is a rule of Monte Carlo rally etiquette to let cars needing to run faster get past you at the first safe opportunity. Please remember this is not a question of who has the better car or who is the better driver. Furthermore, documented instances of deliberate blocking will receive a MAX penalty for that leg.

At Checkpoints, please get COMPLETELY out of the traffic lane when creeping. Last car in line MUST run their emergency flashers. Be sure to check your mirrors when pulling out to cross the hose. At Standoffs, you MUST park far enough OFF the road so that your door, when opened, will not extend into the traffic lane. If circumstances force any Inmarker to be set up in a place inconsistent with the Generals or these Route Instructions, that Leg will be dropped from scoring.

Unless otherwise stated, if there is one Standoff at a location, then 4.00 minutes have already been included in the leg time for you to sign in at Standoff and be given your information. For each additional Standoff, an additional 2.00 minutes are included.

All Passage Control signs pictured in these Route Instructions are actual unique signs on course within approximately 1.25 miles of the intended Inmarker location. It is less than 120 miles to the first scheduled fuel break. Map markings for "Gas" are to identify the town only, not a specific location.
