

# *Ocean's Twelve*

## *ITN Monte Carlo Car Rally*

*Where the Peaks meet the Pacific.*

June 23, 2012

### **Groups X Route Instructions**

These route instructions contain 23 pages of instructions.

Please be sure you have all pages necessary.

### ***INMARKERS***

---

---

To maximize the fun factor of this rally, we will not stop at checkpoints. After you hit the hose, just head for the next one. Some of the checkpoint locations have no room for rally cars to park next to the checkpoint cars, so please do not stop and ask questions. Save your questions for the Standoff crew.

Please do not interfere with other contestants trying to cross the hose at their correct time. If you are late, give the car on the correct minute the "right of way" to the timing hose.

Different classes may have different control locations and/or in-times at the same control. If you encounter a control that doesn't pertain to your class you may pass through it without penalty.

### ***RALLY SAFETY***

---

---

Near the Registration at Las Virgenes and Agoura Road, you will see an abundance of police cars because the Sheriff's office is right up the street. Please pay attention to your driving so they will not have to.

The total driving distance for this rally is 130.1 miles of scenic mountain roads. During checkout runs we have seen people falling off of motorcycles and bicycle riders who will not get out of the way. Just be patient until there is plenty of room to get around them. Every leg of this rally is timed to give you extra time to deal with obstacles.

As you drive this rally, please remember that rally cars are not the only ones on the road. When creeping into an Inmarker, stay as far the right as possible and do not block normal traffic. If you are the faster car, wait for a safe opportunity to pass. A rally is NOT something to risk life and limbs over, yours or anyone else's.

We have written this rally to be as safe as possible. However, your safety while driving is up to you. Be aware that there may be loose sand, rocks or gravel on these roads especially after rain. You can cause major damage to your car by flying around a blind turn and hitting a big rock. Do not trust a road you cannot see.

## ***STANDOFFS***

---

---

Additional information may be available at Standoffs. It is up to you to ask for and obtain it. You will have enough time to plot the compass bearings and get any other relevant information.

## ***PASSAGE CONTROLS***

---

---

Some of the legs on this Rally are Passage Controls. When you are on the Inmarker road and encounter the passage control sign that is pictured in the Route instructions for that leg, then this will indicate that this leg is a Passage Control leg and there is no Inmarker. On each Passage Control sign you will find a letter affixed to the sign, or its support. Enter the letter on the timing card. Turn this information in at the next Standoff that you encounter. Failure to turn in Passage Control information will incur a 500 point penalty. The passage control sign is considered the end of that leg and you should proceed to the next leg.

All passage controls signs will be on your right or straight ahead unless otherwise indicated in the route instructions.

## ***ADDENDUM TO RULES AND GENERAL REGULATIONS***

---

---

For this event, you may pass through Standoffs or Checkpoints more than once as long as it is in the correct direction.

All Standoffs and Checkpoints on this Rally will be considered open 10 minutes before the first car is due to arrive and closed 5 minutes after the last car is expected. Some checkpoint locations may be used twice.

If you need to contact the Rallymaster for questions before or during the event, his contact number is: 818-515-3278 and his name is Paul. The Co-Rallymaster is Ron and he can be reached at 818-882-0500.

## **STANDOFF ONE AND START CONTROL**

---

**TRUE TIME:** 00:00.00

**START TIME:** 11:00 a.m. plus your car number.

**START:** Is located at the scenic overlook 3.0 miles east of Las Virgenes on Piuma Road. This standoff provides directions for checkpoints 2, 3, 5, 6, 7 and 8. The area is not paved, it is hard packed dirt.

This control officially opens at 10:00 am. You will be shown pictures with compass bearings.

No time has been allotted for standoff information or calculations after your start time.

Enter generally eastbound, leave any direction.

It is less than 50 miles to the next fuel at the Malibu Union 76, 21216 Pacific Coast Highway, Malibu, CA.

You may not leave this Control until 11:00.00 am plus your car number in whole minutes.

**NOTES:** Driving time from Registration to Start/Standoff is about 15 minutes. The entrance to the Start/Standoff is not level in some places. Be very careful if your car has a low nose.

**There will be a short meeting at 10:30 am near the tables at the start location. Please be there.**

**MAP REFERENCE:** B

## **LEG 1**

---

**LEG TIME:** 00:13.00

**TRUE TIME:** 00:13.00

**STANDOFF:** There is no standoff for this leg.

**INMARKER:** Is located on Cold Canyon Road, north of Mulholland Highway.  
Enter westbound.
