## **12+ hour Monte Carlo Style Navigational Road Rally**

**November 11, 2016**

### **Route Instructions – ALL CLASSES**

Please read the General Rules and Regulations carefully. They are the basis for this rally. Drive safely and legally at all times. Watch for ALL types of road hazards. Heed ALL posted road signs. Be extremely mindful of unpredictable local traffic at all times. Be very careful of children, animals and slow vehicles near isolated rural homes. In farm areas, be very alert for working vehicles and ATV's turning onto the road without regard for traffic. Watch for and yield to bicyclists at all times.

Please be aware of traffic behind you. Different Groups run different courses, may arrive at rally controls at different times or directions, and may have to run at different speeds. It is a rule of Monte Carlo rally etiquette to let cars needing to run faster get past you at the first safe opportunity. Please remember this is not a question of who has the better car or who the better driver is. Furthermore, documented instances of deliberate blocking will receive a MAX penalty for that leg (Regulation E.2.b).

This is a map-based rally. Names on the Official Maps are the official road names for this rally. Watch mileages for all Checkpoints and Course Controls.

At Checkpoints, if at all possible, please get COMPLETELY out of the traffic lane when creeping. Last car in line MUST run their emergency flashers. Be sure to check your mirrors when pulling out to cross the hose.

At Standoffs, you MUST park far enough OFF the road so that your door, when opened, will not extend into the traffic lane. The True Times are calculated by following the preferred route at the speed limit. Please be extremely careful at all railroad crossings. Please read the Generals before START.

Unless otherwise stated, if there is one STANDOFF at a location, then 4.00 minutes have already been included in the leg time for you to sign in at Standoff and be given any extra information. For each additional Standoff at the same location, an additional 2.00 minutes are included. The maximum penalty for entering a STANDOFF in a direction other than that specified in the Route Instructions is 500 points. The penalty will be assessed on the first leg if the STANDOFF is used for multiple legs.

The "MAP REFERENCES" provide for each LEG indicate the maps that contain the PREFERRED ROUTE for the LEG.

In the event of an equipment failure or other circumstances that prohibit timing as described in Regulation D.8, alternate means of scoring may be employed at the discretion of the Rallymaster.

**ADDENDA TO GENERAL RULES AND REGULATIONS:**

Regulations regarding Passage Controls are not in effect for this rally (B.6, B.8, B.14, D.13). If you reach the point where you expect the CHECKPOINT to be and it is not there, continue on to the next Leg.

Regulation D.11 regarding the opening and closing times of rally controls is modified for the entire event. All rally controls are open from the START control time for the first car until 5 minutes after the time for the FINISH control for the last car, unless otherwise indicated in these Route Instructions.
