

# **TOTAL RECALL**

## **8 hour Monte Carlo Style Navigational Road Rally**

**April 12, 2008**

### **ROUTE INSTRUCTIONS**

Please read the General Rules and Regulations carefully. Ask a rally worker for clarification if necessary. Drive safely and legally at all times. Watch for ALL types of road hazards. Heed ALL posted road signs. Be extremely mindful of unpredictable local traffic at all times. If you smoke, use your ashtray. Please don't litter.

Be very careful of children, animals and slow farm vehicles near isolated rural homes. Please be aware of traffic behind you. Different classes run slightly different courses and may have to run at different speeds. It is a rule of Monte Carlo rally etiquette to let cars needing to run faster get past you at the first safe opportunity. Please remember this is not a question of who has the better car or who is the better driver. Furthermore, documented instances of deliberate blocking will receive a MAX penalty for that leg.

At Checkpoints, please get COMPLETELY out of the traffic lane when creeping. Last car in line MUST run their emergency flashers. Be sure to check your mirrors when pulling out to cross the hose. At Standoffs, you MUST park far enough OFF the road so that your door, when opened, will not extend into the traffic lane.

Please watch carefully for wild animals, especially during the times around dusk. All Rally Controls are deemed to be open from now until the end of the rally, unless otherwise stated. All Passage Control signs pictured in these Route Instructions are actual unique signs on course within 1 mile of the intended Checkpoint location. Unless otherwise stated, all will appear on your right when approached correctly on the preferred route.

Unless otherwise stated, if there is one Standoff at a location, then 4.00 minutes have already been included in the leg time for you to sign in at Standoff and be given your information. For each additional Standoff, an additional 2.00 minutes are included.
